

The Association of Desk and Derrick Clubs (ADDCC) created the ADDCC Foundation in 1987 to assist the Association, its members, and others in the petroleum, energy, and allied industries in developing educational projects and programs.

As a non-profit organization, the ADDCC Foundation needs your support to continue and expand its works. Donations come from Desk and Derrick clubs and members throughout the United States and Canada, from companies, and from interested individuals and foundations. Many specify a donation to honor speakers or to remember friends and professional colleagues.

The ADDCC Foundation supports several areas of service to the Desk and Derrick members and others in the petroleum and allied industries.

Some of the educational projects the Foundation supports:

- Workshops, Symposia, and Seminars
- Educational Publications
- Media Research
- Certification Programs
- Educational Outreach Projects

Foundation Projects

The Foundation supports numerous symposia, seminars, and certification programs at international ADDCC conventions and regional meetings. Projects having received or currently receiving support include:

- Basics of Petroleum Geology
- New Domestic Exploration Industry
- California: Energy Trendsetter Panel
- International Energy Symposium
- Dynamics of North American Petroleum Distribution Symposium
- OSHA Safety Certification Training
- COPAS Certification Seminars & Training (Council of Petroleum Accountant Societies)

Curricula and Educational Materials

The Foundation supports several learning tools for use in classrooms and training courses. For the ADDCC Lending Library, support includes the purchase of educational videos, as well as videotaping of seminars and classes associated with *Fundamentals of Petroleum*, a correspondence course based on the ADDCC-sponsored textbook.

In September 2008, the Foundation provided *Fundamentals of Petroleum* textbooks, to the Academy for Petroleum Exploration, Production & Technology at Milby High School in Houston, TX, in cooperation with the IPAA—Independent Petroleum Association of America.

Outreach

The Foundation also assists with energy industry and ADDCC community outreach projects to create awareness of the role of energy in daily life. Your gift to the ADDCC Foundation will support efforts like those mentioned herein. If you wish, you may also designate your contribution to support a particular Foundation project.

Honoraria and Memorials

Donations to the ADDCC Foundation are a popular way to thank speakers and to acknowledge achievement and are often made to honor or remember friends, family, and professional colleagues.

One thing about which everyone agrees is that there will be change in every phase of our lives in the years to come. Increased education is the pathway to making the change a reality. The ADDCC Foundation can support the needs of petroleum, energy and allied industries employees in the future, have textbooks and videos published and then sponsor study courses in these new technologies.

The motto of the ADDCC Foundation is 'Energy Education is our Foundation.' Although we support many Association of Desk and Derrick Clubs programs, our main priority is to support organizations and projects that educate everyone - from elementary students to adults outside and within the energy industry. The Foundation also funds community outreach projects through ADDCC clubs and the energy industry to create awareness of the role and value of energy in our daily lives.

The Association of Desk and Derrick Clubs

The Association of Desk and Derrick Clubs (ADDC) promotes the education and professional development of individuals employed in, or affiliated with, the petroleum, energy, and allied industries. From this purpose, the motto originated: "Greater Knowledge—Greater Service."

ADDC members work in many phases of the petroleum energy, and allied industries; however, they are united in a common goal: To learn more about their industries in order to become more effective participants.

The first Desk and Derrick Club was formed in New Orleans, LA, in 1949. Shortly thereafter, clubs were started in Jackson, MS; Los Angeles, CA; and Houston, TX. These initial clubs formed the Association of Desk and Derrick Clubs of North America. There are currently 59 Desk and Derrick clubs in the United States and Canada.
